DETAILED ACTION

Election/Restrictions

1. Applicant's election with traverse of the subject matter of claims 1-18, 22-32 and 38 in the reply filed on 10/05/2005 is acknowledged. The traversal is on the ground(s) that the examiner has not provided any evidence showing a process that would be sufficient to make the compounds of claim 19. This is not found persuasive because using different synthetic routes to make silicon compound is routine knowledge for an organic chemist. The examiner is not required to provide evidence for what is well known in the art.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. Claims 1-18, 22-32 and 38 provides for the use of the compound of formula 2, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim Objections

3. Claim 1 is objected to because of the following informalities:

It is respectfully suggested that the word "characterized" be replaced with a word which clearly indicates that a reaction must occur with the compounds of formula 2 in order to make the compounds of formula 1.

Appropriate correction is required.

Art Unit: 1621

Allowable Subject Matter

4. Claims 1-18, 22-32 and 38 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to suggest using the compounds of formula 2 in claim 1 to make the compounds of formula 1. This reaction scheme is not found in the prior art of record.
